If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

DETAILED ACTION

Drawings

The drawings were received on 1/20/2009. These drawings are accepted.

Specification

The amendments to the specification filed on 1/20/2009 are acknowledged and accepted.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On line 15 of claim 35, please insert --at least one-- in between "the" and "therapeutic".

On line 2 of claim 36, please delete ", chemical, substance,".

On line 2 of claim 38, please change "shall tor" to --shaft for--.

On line 2 of claim 46, please insert --the-- in between "around" and "at".

On line 13 of claim 52, please insert --at least one-- in between "the" and "therapeutic".

The following is an examiner's statement of reasons for allowance: The prior art made of record did not disclose or render obvious the limitations recited in claims 35

and 52. The prior art did not disclose or render obvious a device wherein the lumen is in substance communication with the at least one therapeutic substance delivery effector and at least a portion of the lumen is configured to receive the therapeutic substance; and wherein at least a portion of the at least one injury effector passes through, and is electrically isolated from, the portion of the lumen configured to receive the therapeutic substance in combination with the other limitations recited in claims 35 and 52. The closest prior art made of record, namely US 6,902,562 to Negus, did not disclose this limitation. The lumen of the elongate shaft (12) disclosed in Negus is not in substance communication with the therapeutic delivery effector (208). The effector (208) is in substance communication with a conduit (206) that is inserted through the shaft, but is not in substance communication with the actual shaft. There is no motivation to modify the device with the allowable limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to THEODORE J. STIGELL whose telephone number is (571)272-8759. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nicholas Lucchesi can be reached on 571-272-4977. The fax phone
